

EMERGENCY PREPAREDNESS: ENSURING SAFETY IN UNPREDICTABLE SITUATIONS

In a 2024 national preparedness FEMA survey, **57%** of respondents stated that they were **NOT** prepared for a disaster.

Disasters such as floods and fires can happen anywhere, but others such as hurricanes and earthquakes are more common in certain areas - **knowing your surroundings is key.**

Discover key tips for preparing for emergencies and staying safe during unexpected events. Learn how to **create an emergency plan, build a survival kit, and respond effectively** in critical situations.
